Handheld tea harvesting machine

Anirudh Tusnial

Ex-BCG Strategy & Operations Consultant | Business Transformation | Project Leader @TransformationX | BITS Pilani
Dubai, United Arab Emirates

Summary

I am a strategy and operations consultant (ex-BCG, currently Project Leader at TransformationX) with 6+ years of experience delivering business transformation and supply chain impact across the GCC and India. I have led multimillion-dollar engagements for sector leaders in Oil & Gas, Technology, Shipping, Industrial Goods, Public Sector, and Sports — spanning strategy development, procurement, operations excellence, PMO, and operating model design. Recognized with the CIPS Best SRM Initiative in MENA (2025) and BCG's Star Performer Award. Beyond consulting, I bring entrepreneurial experience as the owner-operator of a 700-ton tea estate in Assam, India — where I led a full operational turnaround, drove improvements in quality and profitability, and invented a patented tea harvesting machine. Manufacturing Engineer from BITS Pilani (one of India's premier engineering institutions). Based in Dubai, with deep expertise across GCC markets. Open to strategy and transformation engagements across GCC.

Experience

TransformationX
2 years 10 months
Project Leader
December 2024 - Present (1 year 6 months)
Dubai, United Arab Emirates

Promoted ahead of cycle from Senior Consultant to Project Leader for exceptional performance and client leadership

- Led governance transformation for the largest GCC sports federation — overhauled policies & procedures, reduced procurement TAT by 30%, and instituted best-practice KPIs, SLAs and performance dashboards.
- Championed a 'Zero Supplier Complaints' project for a KSA surveillance player, to improve supplier lifecycle & invoicing processes

Senior Consultant

August 2023 - November 2024 (1 year 4 months)

Dubai, United Arab Emirates

- Category strategy & end-to-end sourcing of surveillance systems worth SAR 1.5 Bn+ for a leading technology player in KSA
- Dry-docking & procurement excellence diagnostic for a global shipping conglomerate, defining the roadmap for 10% profit uptick
- Transformation Management Office (TMO) to operationalize business cluster-specific strategies for a leading GCC plastics & packaging player

Bundookmara Tea Estate

Family Business Turnaround

October 2021 - July 2023 (1 year 10 months)

Assam, India

Revitalized operations for a legacy tea estate producing 700 tons black tea, worth \$1.5+ Mn annually & employing 500+ personnel

- Drove a 14% improvement in tea quality realization, reduced operational leakages by 5%, and cut energy costs by 25% through process improvements
- Patented and prototyped a handheld tea harvesting machine, achieving 30% productivity improvement in trials

Boston Consulting Group (BCG)

Associate

September 2019 - September 2021 (2 years 1 month)

- \$35 million improvement in operating margin for one of India's largest public sector oil refineries through Capex & operational changes and advanced analytics
- 5% EBITDA uptick for India's leading plywood manufacturer focused on throughput, material consumption, quality and digitalization
- Mapped the consumer journey & laid out the product roadmap to enhance consumer retention for India's largest e-commerce platform
- Evaluated new product categories and developed a high level go-to-market strategy for a leading electrical goods manufacturer

Amazon

Area Manager Intern

January 2019 - June 2019 (6 months)

Gurgaon, Haryana, India

- Led a team of 120 associates working in Outbound Operations and successfully shipping upto 60,000 customer orders daily

- Increased pack rates by 12% and productivity by 5% by revamping pack stations – project implemented across Indian FCs
